## SIZING TOOL

### A Free Software for HVAC Professionals

In as little as 15 minutes, contractors can calculate heating and cooling requirements and identify ways to improve the energy efficiency of their projects. HVAC Sizing Tool was created by electric and gas utility programs to help contractors right-size HVAC equipment. **To start using it today, go to: <https://www.hvac sizingtool.com>**

## Key Features

Right-sizing HVAC equipment has never been more important. Thankfully, HVAC Sizing Tool has lots of features that make it easy to use.

### Log-in

Create an account for free at [hvac sizingtool.com](https://www.hvac sizingtool.com)

### Sites
